

# Program Accreditation Deadlines Charts

In order to protect residents and encourage programs to enter the ACGME accreditation process, the AOA Council on Postdoctoral Training has set deadlines for AOA-approved programs to apply for ACGME Accreditation in order to accept trainees that will not complete the program by June 30, 2020. If a program does not apply by the date below, the program will not be able to participate in the AOA Match the following February. Programs may request an exemption to this policy from the AOA Program and Trainee Review Council.

## Chart A - Specialties

Length of Training (Years)	Specialty	ACGME Application Must be Submitted by:
One	Traditional Rotating Internship Aerospace medicine NMM +1	January 1, 2019 (Last Match Feb. 2019)
Two	Child and Adolescent Neurology Child and Adolescent Psychiatry Occupational/environmental medicine Public health and preventive medicine	January 1, 2019
Three	Dermatology Family Medicine Internal Medicine NMM/OMM (including preliminary year) Pediatrics Proctologic Surgery	January 1, 2018
