The American Osteopathic Association’s Commission on Osteopathic College Accreditation (COCA) currently accredits 38 colleges of osteopathic medicine (COMs) operating at 62 different sites offering instruction to approximately 36,500 medical students for the coming academic year. This includes 34 fully accredited COMs with 17 additional locations and 7 branch campuses, as well as 4 pre-accredited COMs.

“Next Accreditation Visit” provides the time period during which the COM will undergo its next comprehensive site visit for purposes of establishing a new full accreditation status, timed to occur before the expiration of the COM’s current accreditation status. “Established” means the year the first class matriculated at the COM, additional location, or branch campus.
